

The Detroit Branch NAACP's Afro-Academic, Cultural, Technological & Scientific Olympics (ACT-SO) program was developed to enhance and showcase the academic and artistic achievement of African-American high school students just as we do their athletic achievements.

ACT-SO is a yearlong enrichment program that culminates in a local, state and national competition where students compete for awards and scholarships totaling over \$50,000. ACT-SO, the "Olympics of the Mind", seeks to promote positive self-esteem, academic & artistic excellence and positive interaction between youth and the adult professional community.

To learn more information ask your teacher, or counselor how you and your friends can become involved in the "Olympics of the Mind."

Who is Eligible?

African-American students in grades 9-12. Students must be an amateur in the category of competition. Students *must* compete in local competition to qualify for the national ACT-SO competition.

(Please complete and return application before **deadline Saturday, March 29, 2014**)
